**CONCENTRATED STRENGTH FORMULA
Makes 320 GALLONS**

64 FL OZ (2 QTS) 1.89 L

EFFECTIVE PEST CONTROL

*All Natural Tick Killz™
can be used to control ticks
and other nuisance insects
all year round!*

MIXING DIRECTIONS: Shake contents to blend thoroughly, fill clean tank with water and then add ½ ounce of Tick Killz™ Concentrate to every 2.5 gallons of water.

NOTE: A 64 fl. oz. container of Tick Killz™ Concentrate will yield 320 Ready-To-Use gallons of product. Average rate of application is approximately ½ - 1 gallon of ready-to-use product per 1,000 sq. ft. The rate of application can vary based on the level of infestation and the amount of foliage.

SPRAYING DIRECTIONS: Product is most effective when sprayed on lawns, shrubs, wooded property perimeters and any shady or damp areas where insects dwell and breed. Tick Killz™ is safe to use on the entire property and will not stain pavers, patios or foundations. Recommended application is every 30-60 days however, product can be re-applied as often as desired. Allow product to dry before entering areas where Tick Killz™ has been applied. Tick Killz™ is safe for use around the entire family and pets. Natural Repellents, L.L.C. asserts that Tick Killz™ complies with EPA Regulations for 25(b) exempt pesticides.

CAUTION: Keep out of reach of children and pets. Not recommended for fruit trees or edible crops. In case of prolonged exposure to skin or eye contact, flush area thoroughly with water for at least 15 minutes and consult a physician. If swallowed, seek medical attention immediately.
FOR OUTDOOR USE ONLY.
